Summary

Storage and Backup Administrator with hands-on experience in enterprise data protection, SAN, and storage operations within 24x7 production data center environments. Proficient in HP Data Protector, HPE Primera A650, MSA storage, and Cisco SAN switches, with strong expertise in backup monitoring, restore operations, incident management, RCA, and SLA compliance. Experienced in coordinating with OEM vendors to ensure high availability, data reliability, and disaster recovery readiness.

Experience

Informage Techno Solutions Pvt. Ltd.

Sep 2024 – Present

Storage & Backup Administrator (Project: United India Insurance Company Data Center Airoli)

- Provided L1 and L2 technical support for HP Data Protector backup and restore operations in a 24x7 production environment.
- Monitored daily backup jobs, resolved failures, long-running jobs, and pending schedules to meet SLA requirements.
- Installed and configured HP Data Protector Cell Manager and client components on Linux and Windows servers.
- Executed and validated incremental, weekly, monthly, and yearly backups with reporting and documentation.
- Configured backup policies, media pools, application sets, and client integrations.
- Performed root cause analysis (RCA) for backup-related incidents and coordinated with cross-functional teams.
- Handled storage administration tasks including provisioning, break-fix support, performance monitoring, and reporting.
- Administered HPE Primera A650 and MSA 2050 storage systems (CPGs, LUNs, hosts, hostsets, application sets).
- Managed Cisco SAN switches including zoning, zonesets, and troubleshooting HBA/path issues.
- Conducted daily hardware health checks for backup and storage infrastructure.
- Managed data center activities including tape library expansions, hardware replacement, and firmware upgrades.
- Raised and coordinated support cases with HPE and OpenText OEM teams for issue resolution and upgrades.

Skills

Backup Tools: HP Data Protector

Storage: HPE Primera, MSA Storage

SAN: Cisco SAN Switch, Zoning, Zonesets

Operating Systems: Linux, Windows Server

Cloud: AWS (Basic)

Programming: Java, Python, C, C++

Tools: Git, GitHub, Docker

Education

B.E. in Information Technology

June 2024

MET Institute of Engineering, Nashik

CGPA: 8.39 / 10

Higher Secondary Certificate (HSC)

March 2020

MG Junior College, Pravaranagar

Percentage: 57.85%

Secondary School Certificate (SSC)

March 2018

New English School, Kolhar BK

Percentage: 81.00%

Awards & Certifications

- AWS Beginner Certification – Edureka
- DevOps Beginner Certification – Edureka
- Cyber Security – Google (Coursera)
- Java and Python Certification – Seema Technologies
